

# Shaping Health and Care in Sheffield

## Our Vision

Working together with patients, public and partners, we will improve and transform the health and wellbeing of our citizens and communities across Sheffield

Fundamentally changing the balance of healthcare provided in hospital and in the community

So that many more patients receive care closer to home, when that is the right place for them to receive care

## Our Mission

The CCG has four priority aims:

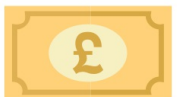

To improve patient experience and access to care

To improve the quality and equality of healthcare in Sheffield

To work with Sheffield City Council to continue to reduce health inequalities in Sheffield

To ensure there is a sustainable, affordable healthcare system in Sheffield

## Our Top 3 Goals

Increasing Care Outside of Hospital

Building sustainable Primary Care that supports GPs in their role

Reducing health inequalities

## We think the Citywide top three goals are:

Supporting people to keep well and engage in health and wellbeing and to adopt healthy behaviours

Work collaboratively to achieve the best possible outcomes for the citizens of Sheffield

Helping people with increased support needs to live as independently as possible
