Is your report for Approval / Consideration / Noting	
Noting	
Are there any Resource Implications?	
No	
Audit Requirement	
<u>CCG Objectives</u>	
<i>Which of the CCG's objectives does this paper support?</i> This paper provides assurance that risks will be identified and managed to help ensure the achievement of the CCG's objectives.	
<u>Equality impact assessment</u>	
<i>Have you carried out an Equality Impact Assessment and is it attached?</i> There are no specific issues associated with this report	
<u>PPE Activity</u>	
<i>How does your paper support involving patients, carers and the public?</i> None required	
Recommendations	
The Governing Body is asked to note the report.	

Chair's Report

Governing Body

26 May 2016

This report summarises the business that I have concluded on behalf of the CCG during May.

As part of my local work I continue to Chair the City Wide Locality Group where discussions continue around neighbourhoods and the evaluation of the enhanced primary care programme.

As a member of the Executive Group for the Sustainable Transformation Plan (STP), I have been asked to join the Clinical Reference Group and will be speaking to colleagues on a weekly basis both in the city and across South Yorkshire to move this agenda forward.

During the month I have attended the Westminster Health Forum Keynote Seminar: Next steps for health and social care commissioning where I was asked to speak about workforce, accountability and integration. I was also asked to take part in an event organised by NHS Partners Network on partnership working on the STP. This event was aimed at a mixed commissioner/provider audience specifically looking at how non-statutory organisations can be brought into STPs and what the NHS can do to encourage the kind of NHS/private sector partnerships envisaged in last year's Spending Review.

The work on the Sustainability and Transformation Planning across South Yorkshire has been moving at pace and I have supported some of the discussion on the Children's and Maternity work stream.

I introduced a session with CCG representatives and Trusts on the 27th April to consider the current picture of provision for acute care with Dr Fiona Campbell, who is a lead Paediatrician and experienced clinical network lead.

We considered the Paediatric workforce in relation to rotas for acute care, and the pathway of provision within the community between primary and secondary care and how we manage children presenting with acute medical needs. This exercise demonstrated the current configuration is not a sustainable picture and confirmed we will need to work differently with new care models between primary and secondary care in the future.

This will now inform our sustainability and transformation plan for South Yorkshire. Our next session on the 18th of May will consider sustainable models that we want to explore for the future. The good news is there was a real willingness to improve health outcomes for children across South Yorkshire so we have a great clinical commitment to working together on this across the geography.

Members' meeting: The date for the next Members' Council has been scheduled for Wednesday 28 September 2016 and I would encourage all member practices in the city to attend.

The Annual Public Meeting will be held on the 13 September 2016, 2.00 – 4.00 pm, venue to be confirmed.

As always I am happy to answer any questions or provide further information on any of the above points.

Tim Moorhead
