Dr Marion Sloan
Clinical Commissioning Group Governing Body

Dear Marion

I am writing to update you on the Council's approach to making Sheffield a more sustainable city.

I would like to start by thanking you on behalf of the Council for the dedication and commitment that you provided as a member of the Sheffield Green Commission. The final report of the Commission 'Sheffield's Green Commitment' was greatly appreciated and welcomed across the city, and further to this, its vision and recommendations have helped to shape our thinking and informed the development of our new approach.

'Growing Sustainably; a bold plan for a sustainable Sheffield' builds on the vital work of the Green Commission and sets out five priority themes which will enable Sheffield to be a leading centre of sustainable growth. Our five themes are;

- Sustainable and affordable energy
- Transport and mobility
- Air quality
- A green and innovative economy
- Climate change mitigation and adaptation

I am proud to announce that we are presenting this report at Sheffield City Council Cabinet on Wednesday 15th March for approval.

A copy of the report can be is available on our website:

We have developed a strategy which we think sets out our bold ambitions, and will be committing to undertake a gap analysis and develop a clear action plan by the end of this year.

City sustainability isn't something which one organisation can achieve in isolation, and will require the support and contribution of all organisations, businesses and residents across the city. In creating a clear vision and strategy we hope to re-affirm our ambitions and enable other partners to contribute.

I would like to extend an offer to meet with you and discuss our plan in greater detail, and to understand how we can work together to achieve our city ambition.

Many thanks and kind regards
